60+ | ANEW PLATINUM
COMBATS SERIOUS SIGNS OF AGING

IF YOU THINK YOUR YOUTH IS GONE... THINK AGAIN

"I don't lie about my age. My skin does."

— Jacqueline Bisset,
66-year-old international film star

Introducing the next generation of skin care for women 60 & beyond...

ANEW PLATINUM
Serum & Night Cream

A breakthrough so advanced, it reshapes anti-aging science

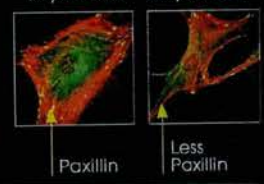
The 1st with Paxillium

THE INSPIRATION

As skin ages, cell shape collapses, resulting in a loss of youthful contours.

THE DISCOVERY

AVON scientists discover the power of Paxillin. This key protein helps retain the full, expanded shape of youthful skin cells and is found in lesser amounts in aging cells.



THE BREAKTHROUGH TECHNOLOGY

Avon's first-ever patented Paxillium Technology is formulated to BOOST THE PRODUCTION OF PAXILLIN BY 60%.* Platinum recaptures the look of youthful contours.

*Based on in vitro testing of Paxillium Technology on 3-D reconstructed skin.
